

# Our Caregivers

Compassion and reliability is a key factor in our hiring of caregivers. We know that trust is of paramount importance to our clients when it comes to the care of their loved ones. We carefully screen all our applicants and all caregivers are bonded.

Education is a cornerstone of what we do. As a former Professor of Nursing at York University, our Director of Care, provides our caregivers with ongoing education and training to ensure they are following best practices and keeping their skills up-to-date.

Whether you require the specialized care of a Registered Nurse, a Registered Practitioner Nurse or the day-to-day care of a personal support worker, we have the right caregiver for your needs - when and where you need them.

# About

## LiveWell Pathway

LiveWell Pathway Healthcare Services provides personalized and specialized private healthcare services to families to ease the pressures and stress of caring for their aging or ill loved ones.

At LiveWell Pathway, we understand firsthand the challenges of caring for aging or ill loved ones. Often, the burden of care can take away from the joy of just being a daughter, son, husband, or wife. Our goal is to help you provide the best care possible for your loved one, while giving you back your time to be that son, daughter or partner again.

### Founded on Care

Founded on over 30 years of nursing experience and care, we understand the importance of creating a personalized care plan for your loved one and ensuring you are involved in the process. We take the time to educate you on the disease, illness or situation your loved one is facing to help remove any fear or concerns you might have surrounding their care.

### Continuous Education

At LiveWell Pathway, we ensure that all our caregivers are trained and educated on the latest developments and trends so that you receive consistent, quality care. We even strive to match the personality of our caregiver with your loved one for the best possible fit.
